BAILING VESSEL LIMIT

ster seven-masted schooner Thomas W. Lawson suggests that it has. Hardly order that there shall not be a wrong a year from the launching of this impression, I wish to announce that I schooner, which cost \$250,000, the an- uo not intend to resign for some time." nouncement is made that the owners have decided to dismantle and convert the vessel into a freight barge. The tongue, and yet they make their husowners acknolwedge that it is imprac- bands cut wood with a dull axe. ticable to keep her in commission as a sailing craft!

From the outset the "Lawson" has been watched with close interest by shipbuilders. Steamers have been steadily increasing in size, but this big vessel was considered by many to be what is finally proved—an experiment. She is the largest schooner-rigged vessel ever launched. She is 395 feet long. draught when loaded is 26½ feet of from all gritty matter, and soluble in oil, water. Her displacement is 10,000 CARRARA Paint, when applied, become ly for the coal trade and though capsea from Philadelphia; with only 8000 tons in the hold she grounded in getting away from Curtis Bay.

The upahot if it all is the discovery that there are very few American harbors which the "Lawson" can enter and depart when loaded to her full capacity. This means long and unprofitable waits for cargoes in the deep water ports. Furthermore it was found she was hard to handle at sea. According to one report it took her an

hour to put her about in a head wind. Some are not ready to admit that the "Lawson" is the limit. They claim a change to square rig would overcome the salling difficulties, but it would

seem that the owners would have ex there were any possibility of saving the

It is a foregone conclusion that ves BULLETIN PUBLISHING CO., LTD. not be built again in the near future for coasting or deep sea traffic.

THE NEWEST THING IN HAWAII.

Carrara Mixed Paint

Its superiority over all other PAINTS for this climate has been established.

THE REASON WHY IT IS BETTER.

CARRARA Paint is made from a natural paint pigment, from which all over all; has a beam of 50 feet and a matter having a tendency to oxydize or destroy the oil has been removed by depth of 34 feet and 5 inches; and her patent process. It is a combination of mineral substances, perfectly free

CARRARA Paint, when applied, becomes practically a part of the surtons; each of her steel masts is 135 face, and being non-porous, retains, indefinitely, the oil, which is the life of feet high with pine top-masts 58 feet any paint. It is not in any way affected by alkali, gases, or atmospheric long; and she can spread 43,000 square changes, and having a hard, glossy surface, it can be washed like a piece of feet of canvas. She was built especial- porcelain-the white always remaining white and the Colors permanent.

The superiority of CARRARA Paint is due to the combination of our able of holding a cargo, has proved a special pigment and pure linseed oil, which, together with improved ma-failure in carrying it. With a cargo of chinery for thoroughly grinding and mixing, enables us to place on the maronly 7500 tons of coal she grounded ket at a reasonable price, the most durable paint ever produced twice in the Delaware in getting to SAMPLE CARDS OF COLORS ON APPLICATION.

CARRARA is put up in 1-8, 1-4, 1-2, 1 and 5-gallon tins, Mixed Ready for
